

# ĐẶNG THÁI SƠN

**Address:** Binh Tan District, HCM city  
**Phone:** 0904298354  
**Email:** dangthaison8354@gmail.com  
**Github:** <https://github.com/thaison65>  
**Linkedin:** [linkedin.com/in/thaison65](https://linkedin.com/in/thaison65)

## SUMMARY

I have extensive knowledge of front-end development and feel the most confident working with ReactJS. I always want to grow, make daily efforts to better understand the programming industry. With a solid background in JavaScript and TypeScript, I'm not afraid to step outside the box to learn and explore new areas in the field. In addition, I am self-learning other areas, such as Java (Spring Boot), to better meet the job requirements.

## SKILLS

### Professional

- Investigate
- Open mind
- Teamwork
- Time management
- Fast learner
- Under high pressure

### Technical

- Front-end: JavaScript (ES6), TypeScript, ReactJS, Redux/toolkit, SASS.
- Framework of Front-end: NextJS, Tailwind CSS, Material UI.
- Back-end: NodeJS (Express).
- Database: MySQL, MongoDB.

## WORK EXPERIENCE

### Internship LIKELION VIET NAM

June 2024 - Present

Learn in-depth concepts for becoming a Front-end Developer, such as HTML, CSS, JavaScript, TypeScript and ReactJS. Work on related exercises under the guidance of a mentor with over 3-5 years of practical experience, and collaborate with the Back-end team on a small project.

Some of the projects that have been done:

- **UI Website Shop Pets (ReactJS):**

Project about pet shop and related products

- Link demo: <https://project-shop-pets.vercel.app>
- Link github: [https://github.com/thaison65/project\\_shop\\_pets](https://github.com/thaison65/project_shop_pets)

- **Small Projects Collaborate with Back-End (ReactJS):**

- Team size: 4
- Position in project: I was the front-end team leader and came up with the idea for this restaurant reservation project, and worked with two people from the back-end team
- Link demo:
  - Website Admin: <https://ktc-restaurent-table-reservation-administrator.vercel.app>
  - Website User: <https://ktc-restaurant-table-reservation.vercel.app>
- Link github:
  - Website Admin: [https://github.com/thaison65/ktc\\_restaurant\\_table\\_reservation\\_administrator](https://github.com/thaison65/ktc_restaurant_table_reservation_administrator)
  - Website User: [https://github.com/thaison65/ktc\\_restaurant\\_table\\_reservation](https://github.com/thaison65/ktc_restaurant_table_reservation)

- **Some other projects:**

- Other projects and exercises when participating in KTC:

After the knowledge that I am imparted by the Lecturer, there will be similar projects or exercises to apply in practice.

  - Link github: [https://github.com/thaison65/ktc\\_exercises](https://github.com/thaison65/ktc_exercises)
- The project is about a newspaper reading page:

The Lecturer gave us an external project to work as a team and assign roles to each person.

## PORTFOLIO

---

### Website Clone Booking Hotel

OCT 2023 - Jan 2024

I am building an online hotel booking website that enables users to compare prices and book hotels directly through the platform. The website will provide a seamless user experience, allowing travelers to filter options based on location, price, amenities, and other preferences, making it easier for them to find the perfect stay. My goal is to create a user-friendly interface and ensure a smooth booking process.

- Completion schedule: Website user(80%), Website dashboard for Hotelier (50%), Website dashboard (developing).
- Technology description: NextJS, ReactJS, NodeJS(Express), MongoDB, Material UI, Cloudinary,...
- Responsibility in project: Build an online hotel booking website
- Link github:
  - Front-end:
    - Link user: [https://github.com/thaison65/user\\_booking.git](https://github.com/thaison65/user_booking.git)
    - Link hotelier: [https://github.com/thaison65/hotelier\\_booking.git](https://github.com/thaison65/hotelier_booking.git)
  - Back-end:
    - Link server: [https://github.com/thaison65/server\\_booking.git](https://github.com/thaison65/server_booking.git)

### Website selling clothes

OCT 2022 - DEC 2022

The project is carried out in a school subject. Create a basic ecommerce website with the product idea of a website selling clothes.

- Team size: 4
- Position in project: Leader, Front-end.
- Completion schedule: Build project (90%).
- Technology description: ReactJS, Spring boot(Java), MySQL, Material UI.
- Responsibility in project: Design and Handle product management functions.
- Link github:
  - Front-end: [https://github.com/thaison65/user\\_booking.git](https://github.com/thaison65/user_booking.git)
  - Back-end: <https://github.com/HTV-DT/BackEnd.git>

## EDUCATION

---

### Engineer of Information Technology

Sep 2019 - Jul 2024

SAIGON TECHNOLOGY UNIVERSITY

- Major in Information Technology.
- GPA: 7.12/10
